

# EzContent

a comprehensive resource for high quality interactive educational content

**the true value of ICT learning is not in the technology it's in the content**

The introduction of ICT into UK classrooms has transformed the learning process for teachers and pupils alike. But the technology is simply a tool. The real power of the lesson, the ability to engage, influence and motivate your pupils, is in the content.

## Premium Range, Premium Content

All content is designed for use with the EzClickPro interactive classroom response system. The system comes pre-installed with 1500 basic questions, but by selecting lesson plans from the EzContent Premium Range you can potentially add up to 15,000 questions following the UK National Curriculum and national strategies for developing blended learning programmes. EzContent Premium Range questions are enriched with multimedia and feature images, sound and animations. All of which makes for a more stimulating learning experience, encouraging a high level of interaction and participation from all pupils.

## Save Time on Lesson Preparation

As a teacher, the use of pre-prepared EzContent will reduce the time and effort you spend planning and preparing content for lessons. What's more, feedback from existing users suggests that using EzContent as an integral part of your teaching can provide inspiration for you too, bringing a fresh approach to familiar content.

## A Full Range of National Curriculum Lesson Plans

Question sets are arranged into lesson plans covering nearly all National Curriculum subjects and key stages. To view the full range of lesson plans currently available please check our website. New content is added regularly to the database from established content providers, professional educators and from other members registered with EzContent through the Members Community.

## Share Content Through the Members Community

Once registered, you not only benefit from the high quality content provided, but from the combined learning and experience of all other registered users through the Members Community. As a member, you're given access to an exclusive area of the website where you can download new content created by other members and upload content of your own for others to share.

## Lesson Plans

Organised under key stages where appropriate all National Curriculum lesson plans are designed to work with the EzClickPro system and all feature a high level of interactive content for greater impact.
