Protects POP3 e-mails from viruses and unsolicited email. EzGuardian comes complete with:

Unique Double Anti-Virus Filter ensures optimum protection from potential viruses

Detects over 250,000 viruses, worms, Trojan horses and other malware

Scans e-mail messages and attachments; detects, disinfects and deletes

Supports compressed files and archives

Scans and detects for unsolicited mail(Spam)

power supply

External/Internal 100-240 V Auto Sensing

www protection

EzGuardian comes complete with optional comprehensive Web Content Filtering:

Instant 'responsible use' policy for all users on the network

Advanced filtering system provides multiple levels of filtering to ensure maximum security

Scans text and HTML pages for illicit (sexual, racial, violent, etc) content

Option to block or limit web upload/download by media type

Stops inappropriate material consuming bandwidth

Integral Advert Deletion Filter

enhanced browsing efficiency

Intelligently caches most popular web sites visited so speeding up browsing and reducing HTTP bandwidth by an average of 25%

Refreshes pages when network not in use enhancing internet efficiency

Traffic shaping which prioritises web browsing over email and download activity

reporting

The EzGuardian has the ability to monitor, log and report all web activity:

Reports are available daily

Logs individual IP address activity

A typical report includes:

Top sites visited by host

Usage by file type

Bandwidth consumed

Web proxy report

% Bandwidth Saved

ease of network control

For ease of use, DHCP server sets up IP addresses automatically making networking a dream:

Unit can be pre-configured for specific sites allowing management to restrict staff access to prohibited sites and increasing productivity, efficiency and effectiveness

Web interface allows sites to be added easily and quickly

support & management portal

Manage any EzGuardian unit, anywhere in the world, at any time. Providing you with control 24/7.

View the status of your EzGuardian at a glance

SMTP relay control

Web Cache control

Spam control
