

EzText

part of the EzService range

send text messages a host of benefits for your school, college or university

Send text messages directly from any PC with an Internet connection

EzText brings a host of benefits to your school, college or university. A variety of studies have shown that up to 60% of a school's telephony charges are made up of calls to parents to inform them of absentee children and calls to find supply teachers at short notice. The possible savings that can be made by using EzText in these two areas alone could save you hundreds of pounds.

Why SMS with EzText?

Absentees – send an instant message to the parents of absent students.

You can do this individually, or to the parents/guardians of every student.

Illnesses – alert parents instantly if a child falls ill whilst at school.

Staff – contact staff and/or supply teachers the minute you need them.

Urgent Notices – send important messages to the staff, the parents or the students – simply, quickly and cost effectively, e.g. School enclosure, snow alert, cancelled school trip.

Promotion – promote events at the school such as Plays, Sports Days.

Parents Evenings – ensure parents are aware of parents evenings and send specific times for meetings.

Correspondence – ensure that parents receive notes home about homework, trips, behaviour problems.

Familiarity – most people use text messages.

features
